F4 –
die konsequente Weiterentwicklung der F2.
Die F4 glänzt durch Komplettbearbeitung – inklusive Fügetechnik, Eckenbearbeitung und Flächenziehklinge – auf nur 4 m Maschinenlänge.
Für die Kantennachbearbeitung steht ein Freiplatz für eine optionale Radiusziehklinge zur Verfügung.

F4 –
the consequent further development of F2.
F4 is brilliant because of complete processing – including pre-milling, corner rounding unit and surface scraper – and with only 4 meters machine length.
For further treatment of the egde there is also the option to equip the machine with a radius profile scraper.
